RETRO RPG — OFFICIAL GAME GUIDE

As Generated by Copilot

IMPORTANT NOTE (by user)

Not everything written here can be experienced in game. It may exist within the code but it is not properly implemented, or the LLM thought of implementing it and claims it is a complete feature .

Player Manual & World Reference

1. Introduction

Welcome to **Retro RPG**, a charming pixel-art adventure where exploration, strategy, and discovery shape your journey.
This guide explains everything you need to know to navigate the world, battle creatures, interact with NPCs, and manage your party.

Whether you're a new adventurer or a seasoned explorer, this manual will help you master the game's systems.

2. Controls

Movement

- **Arrow Keys** — Move your character around the world

Interaction

- **Z** — Confirm, talk, interact
- **X** — Open/close the main menu
- **M** — Toggle the map editor (developer mode)

Saving & Loading

- **P** — Save your game
- **L** — Load your game

3. Exploring the World

The world is divided into multiple maps such as towns, forests, and special areas.

Doors & Transitions

Walk into a door tile or press **Z** to move to a new area.

Random Encounters

In certain regions (like forests), walking on specific tiles may trigger a **wild battle**.

4. NPCs (Non-Player Characters)

NPCs bring the world to life with movement, personality, and interaction.

NPC Features

- Animated sprites (4 directions, 4 frames)
- Idle animations (blinking, bobbing)
- Emotion bubbles (! ? ♥)
- Portraits in dialog
- Personalities (shy, friendly, hyper, lazy, curious, scared)
- Patrol routes (guards follow paths)
- Day/night schedules (some NPCs appear only during the day)

Talking to NPCs

Walk up to them and press **Z**.
NPCs will face you and may show an emotion bubble.

5. Battle System

Battles are turn-based and occur in wild areas.

Starting a Battle

- Triggered randomly in certain tiles
- A wild creature appears
- Your active party member fights first

Battle Options

1. **Fight** — Use one of your creature's moves
2. **Item** — Use Potions or other items
3. **Capture** — Attempt to catch the wild creature
4. **Run** — Try to escape

Moves

Each move has:

- Power
- Accuracy
- PP (uses)

Capturing Creatures

Use a **Capture Orb**.
Lower enemy HP increases the chance of success.

Captured creatures go to:

- Your **party** (if space)
- The **PC storage** (if party is full)

6. Party & Creatures

Your party can hold up to **six creatures**.

Party Menu

Open with **X → Party**.

You can:

- Inspect stats
- Switch the active creature
- Heal using items
- View moves

PC Storage

Extra creatures are stored safely and can be viewed anytime.

7. Items & Inventory

Open with **X → Items**.

Common Items

- **Potion** — Restore HP
- **Capture Orb** — Catch wild creatures

Items can be used:

- In battle

- From the menu
- On party members

8. Towns, Shops & Events

Shops

Merchants sell items.
Talk to them to open the shop interface.

Events

Some tiles or NPCs trigger scripted events:

- Dialog
- Teleport
- Giving items
- Running custom scripts

9. Map Editor (Developer Mode)

Press **M** to toggle the editor.

Editor Tools

- **Paint** — Place tiles
- **Erase** — Remove tiles
- **Right-click** — Select tile or object to edit events
- **Event Editor** — Add dialog, teleports, scripts

This mode is ideal for building or modifying your world.

10. Saving & Loading

Save

Press **P** or use the panel button.

Load

Press **L** or use the panel button.

Your save includes:

- Player position
- Party

- Inventory
- Map state
- NPCs
- Events

11. Day/Night Cycle

Time passes as you move.
Some NPCs:

- Only appear during the day
- Sleep at night
- Change behavior based on time

This adds life and rhythm to the world.

12. Visual Style

The game uses:

- Pixel-art tiles
- Procedurally generated character sprites
- Recolorable palettes (default, night, desert, snow)
- Portraits for NPCs

You can switch palettes from the side panel.

13. Audio

The game includes:

- Simple chiptune music
- Sound effects for steps, attacks, hits, captures
- Adjustable tempo and volume

14. Tips for New Players

- Talk to everyone — NPCs give hints
- Heal often
- Capture creatures early
- Explore the forest for XP

- Save before dangerous areas
- Use the editor to experiment with map design

15. Developer Notes

Retro RPG is designed to be:

- Easy to extend
- Fully moddable
- Scriptable through events
- Beginner-friendly

You can add:

- New maps
- New NPCs
- New creatures
- New events
- New tiles
- New palettes

Everything is data-driven.
